

HAMMAD AHMED

Full-Stack Developer & Tech Lead

+92 333 272 1215 • hamahmed95@gmail.com • [linkedin.com/in/hammad23](https://www.linkedin.com/in/hammad23) • github.com/madbat95

PROFESSIONAL SUMMARY

Full-stack developer with 5+ years of experience building enterprise-grade applications using Angular, Next.js, NestJS, and Django. Proven track record leading client-facing discovery and requirements sessions, delivering scalable architectures, and integrating complex third-party APIs. Experienced in both product ownership and hands-on engineering across the full development lifecycle. Proficient in AI-assisted development workflows (Claude, GitHub Copilot), enabling faster delivery and consistent code quality.

TECHNICAL SKILLS

Frontend: Angular, Next.js (v16), React 19, TypeScript, Tailwind CSS v4, Ant Design, Bootstrap, Material Design, SCSS

Backend: NestJS, Django REST Framework, TypeORM, Node.js, PostgreSQL, SQL Server, BigQuery

State & Data: TanStack Query, RxJS, Zustand, WebSockets

Cloud & Integrations: AWS S3, Azure Blob Storage, Stripe, PayPal, NMI, SendGrid, Google APIs, Microsoft Graph, Mux

Testing & Docs: Jest, Compodoc, Postman

Tools: Git, Jira, PowerBI, Qlik, Chart.js, Recharts, Framer Motion, Zod, Radix UI

Languages: TypeScript, JavaScript, Python, Java

AI-Assisted Dev: Claude (Anthropic), GitHub Copilot — accelerated full-stack delivery, code review, and architectural planning

EXPERIENCE

Tech Lead — Full-Stack Developer & Product Owner | [Shispare](#) | Aug 2025 - Present

Project: *Nebula Academy — AI-Powered Learning Management System*

- ▶ Led all client-facing meetings including requirements gathering, sprint planning, and backlog prioritization as Product Owner throughout the full product lifecycle.
- ▶ Built complete LMS frontend using Next.js 16, React 19, TypeScript, and Tailwind CSS v4 with multi-role dashboards (learners, instructors, coaches, admins, superadmins), enforced via permission-aware route guards and role utilities.
- ▶ Developed admin analytics dashboards with organization-filtered statistics, course rankings, learner/instructor activity metrics, and case management reporting.
- ▶ Created assessment and exam workflows including submission dialogs, result screens, and scheduling flows; integrated Stripe Checkout via Next.js API routes with payment-aware event registration.
- ▶ Built and maintained NestJS + TypeORM + PostgreSQL backend with JWT and Passport authentication and role-based access control across users, roles, and permissions modules.
- ▶ Developed core LMS modules covering courses, assignments, quizzes, resources, and categories with separate dashboards per user role.
- ▶ Integrated Google Meet and Microsoft Teams APIs for automated meeting and webinar lifecycle management.
- ▶ Connected AWS S3, Azure Blob Storage, SendGrid, Microsoft Graph, and Mux; designed TypeORM migrations, seeding scripts, and environment utilities.
- ▶ Leveraged Claude and GitHub Copilot throughout development to accelerate delivery, enforce code quality, and expand technology coverage.

Software Engineer | [BitByteCyber](#) | Jan 2023 - Aug 2025

- ▶ Built enterprise-grade Angular applications with fully lazy-loaded modules, auth and permission-based route guards, and interceptors for centralized token handling and error display.

- ▶ Engineered complex dynamic forms using Angular Reactive Forms and Formly including multi-step steppers, FormArrays, and API integration; built a form builder module allowing event creators to define custom fields auto-rendered per ticket type.
- ▶ Integrated WebSockets for real-time chat and notifications; implemented CASL-based RBAC for granular access control across modules and UI elements.
- ▶ Integrated payment gateways (Stripe, NMI, PayPal) directly from the Angular frontend; built real-time Chart.js dashboards and a custom FullCalendar module with multi-day event views.
- ▶ Generated downloadable CSV and PDF reports; built Chrome browser extensions and automated business workflows using Zoho Deluge scripting.
- ▶ Translated Figma designs into pixel-perfect UIs using SCSS, Ant Design, and TailwindCSS; supported live production projects with QA and clients to ensure minimal downtime.

Application Consultant / Software Engineer | [Makeen.io](#) | *Jul 2020 - Dec 2022*

- ▶ Integrated Makeen Transform on client systems and collaborated with cross-functional teams to deliver tailored software solutions; managed project scope and task tracking via Jira.

Business Intelligence Consultant | [Blutech Consulting](#) | *Dec 2019 - Jun 2020*

- ▶ Automated ETL processes using SSIS and SSRS for regulatory reporting; designed and deployed scalable REST APIs with Django REST Framework; leveraged OpenCV for NIC card data extraction.

KEY PROJECTS

- ▶ **Nebula Academy** – AI-powered enterprise LMS (Next.js, NestJS, PostgreSQL); built full-stack as Tech Lead and served as Product Owner for all client-facing stages.
- ▶ **FMCSA** – Migrated legacy system to Angular-based CRM for the US trucking industry; platform handles tens of thousands of weekly visits.
- ▶ **BOIFiling** – Complex role-based CRM portal for US company BOI filing compliance.
- ▶ **Event Hippie** – Ticket purchasing platform with Stripe and Twilio integrations and highly dynamic form generation.
- ▶ **Trophy Hunter** – Hunting season event portal featuring notifications, real-time chat, and event management.
- ▶ **Arbitration** – Conflict resolution product managing witnesses, claimants, respondents, and evidence workflows.

EDUCATION

BS in Computer Science — Institute of Business Administration (IBA), Karachi | *2014 - 2018*
